

# Materials List

## *Building and Installing a Rain Barrel*

### Provided Materials

- 50 Gallon Plastic Barrel
- Flexfit Diverter Kit

### Protective Equipment

- Plastic gloves
- Eye protection
- Surgical face mask (for sanding)

### Cleaning the Barrel – *Removing adhesive and sanding help prepare the barrel for paint*

- Bucket
- Water supply
- Distilled white vinegar
- Adhesive remover (such as Goo Gone brand)
- Sponge
- Sandpaper or sanding block
- Razor scraper
- Plastic tarp

### Installing the Hardware

- Measuring tape
- Permanent marker
- Drill with hole saw attachment

### Painting the Barrel – *Applying paint will prevent algae from growing inside the barrel.*

- High Build Binding Primer (one gallon)
- Tint for paint (optional)
- Paintbrush
